INFORMATION FOR AUTHORS

MANUSCRIPT ACCEPTANCE POLICY: Manuscripts are accepted subject to editing. While it is our policy to require the assignment of copyright on most journal articles, we do not usually request assignment of copyright for other contributions. Although the copyright to such a contribution may remain with the author, it is understood that, in return for publication, the journal has the non-exclusive right to publish the contribution and the continuing right, without limit, to include the contribution as part of any reprinting of the issue and/or volume of the journal in which the contribution first appeared by any means and in any format, including computer-assisted storage and readout, in which the issue and/or volume may be reproduced by the publisher or by its licensed agencies. Submission of a manuscript to the *American Journal of Education* is taken to indicate the author's commitment to publish in this journal. No paper known to be under consideration by any other journal will be reviewed by the *American Journal of Education*.

PREPARATION OF COPY:

1. Type all copy—including indented matter, footnotes, and references—double-spaced, allowing generous margins at top, bottom, and sides of page.
2. Footnotes are to be used only for substantive observations. Number consecutively and place on a separate page titled "Notes."
3. Type tables on separate pages without vertical rules. Number consecutively. Attach short titles. Cite appropriate points in text. Place footnotes at bottom of table. Mark with asterisks, daggers, etc., according to standard usage.
4. Draw figures on white paper with india ink. Original or glossy print of each figure will be required if manuscript is accepted.
5. Include brief abstract.
6. Three copies of manuscript and abstract, on white paper, must be submitted. Manuscripts should be addressed to *American Journal of Education*, The University of Chicago, 5835 Kimbark Avenue, Chicago, Illinois 60637. Manuscripts are not returned to authors unless we receive a stamped, self-addressed envelope.

REFERENCES: *Citations in text.* All references to monographs, articles, and statistical sources are to be identified at appropriate point in text by last name of author, year of publication, and pagination where appropriate, all within parentheses. Cite references as indicated. When author's name is in the text: Rader (1975). When author's name is not in the text: (Popkewitz 1975). Pagination (for a quote) follows year of publication: (Lipset 1964, p. 62). With dual authorship, give both names; for more than three, use "et al." For institutional authorship, supply identification from beginning of complete citation: (U.S. Bureau of Census 1963, p. 117). With more than one reference to an author, distinguish them by use of letters (*a*, *b*) attached to the year of publication: (1956*a*). Enclose a series of references within a single pair of parentheses, separated by semicolons.

Reference format. List all items alphabetically by author and, within author, by year of publication, on a separate page titled "References." Examples follow:
